

# SITC 2018

NOVEMBER 7-11  
WASHINGTON, D.C.

Walter E. Washington  
Convention Center

*NEW LOCATION • SAVE THE DATE*

Society for Immunotherapy of Cancer

# Thank You to Our Organizers!

---

## Annual Program Committee Chair

Mario Sznol, MD – *Yale School of Medicine*

## 33<sup>rd</sup> Annual Meeting

Crystal L. Mackall, MD – *Stanford University*

Naiyer A. Rizvi, MD – *Columbia University Medical Center*

Krista M. Rubin, MS, FNP-BC – *Massachusetts General Hospital*

Dario A. A. Vignali, PhD – *University of Pittsburgh*

## Workshop on Dietary Effects on the Microbiome

Laurence Zitvogel, MD, PhD – *Institute Gustave Roussy*

## Primer on Tumor Immunology and Cancer Immunotherapy™

Timothy NJ Bullock, PhD – *University of Virginia*

Jonathan Powell, MD, PhD – *Johns Hopkins University School of Medicine*

## Dates to Remember

---

Registration and Housing open to SITC members: **March 20, 2018**

Registration and Housing open to all: **April 3, 2018**

Abstract submission site open: **April 3, 2018**

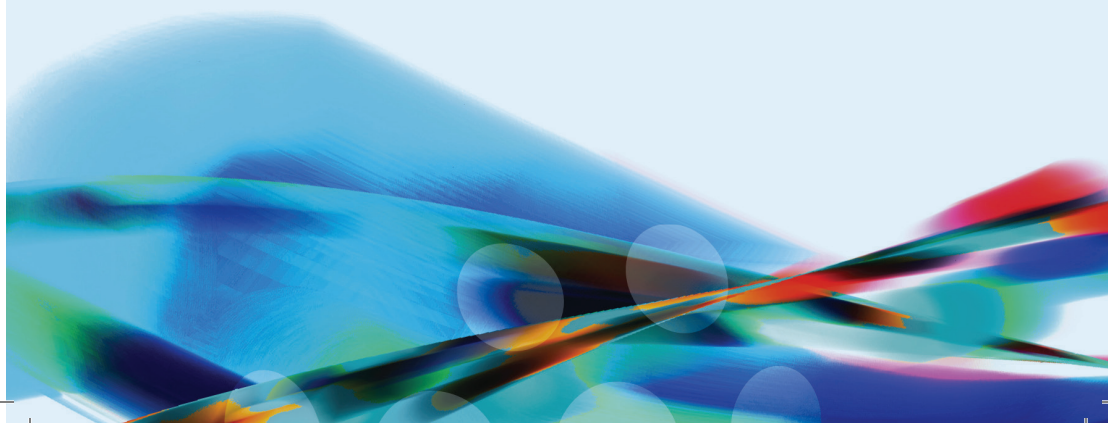

Abstract submission site close: **Aug. 1, 2018**

Late-Breaking Abstract submission site open: **Aug. 24, 2018**

Late-Breaking Abstract submission site close: **Sept. 13, 2018**

Early Registration ends: **Oct. 10, 2018**

Housing closes: **Oct. 15, 2018**

# Programming

---

## Plenary Sessions

Cell-Based Therapies for Solid Tumors

Immune Checkpoints— Beyond PD 1

Next Generation Bispecifics and Antibody-Like Molecules

Understanding the Tumor Microenvironment

## Concurrent Sessions

Advances in Immunotherapy in:

- Pediatric Malignancies
- Lung, Head and Neck Cancer
- GI and Pancreatic Cancer
- GU Tumors
- Breast and Ovarian Cancers
- Hematologic Malignancies

Basic Biology of Tregs

Clinical Management of Cell Therapy Administration

Clinical Trial Design/Surrogate Efficacy Markers

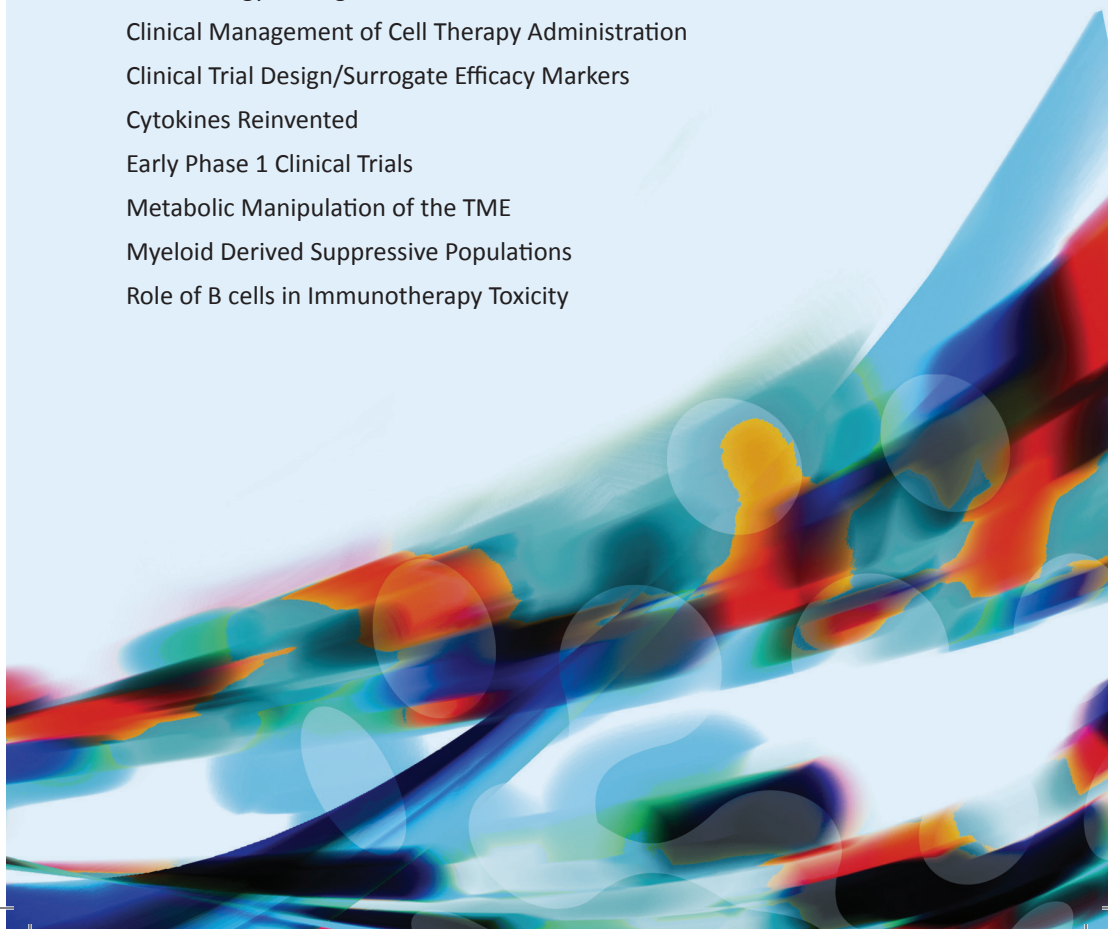

Cytokines Reinvented

Early Phase 1 Clinical Trials

Metabolic Manipulation of the TME

Myeloid Derived Suppressive Populations

Role of B cells in Immunotherapy Toxicity
