

Ending cancer as we know it

SITC Immuno-Oncology Biomarkers Workshop

Catharine Young, PhD

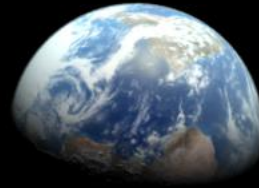

“

We will stay involved because
for the first time in 46 years
there is some real movement
in collaboration and, with
that, new hope.”

IMPACT

COLLECTIVE IMPACT

BIDEN

CANCER

INITIATIVE

We are creating the
cancer research and
health care system
that people think we
already have.

OUR PRINCIPLES

1

Share data and
knowledge

2

Ensure
affordable
access to the
best in care for
all people

3

Bring patients
into the design
of our research
and care systems

4

Reduce
disparities in
cancer outcomes

5

Put progress
ahead of
personal gain

6

Find new
solutions,
disseminate

7

Help people
navigate their
cancer journey

**Informed and
guided by expert
advice and
experience**
